

GALAPAGOS SKY

exceptional underwater adventures

RENTAL GEAR

We highly recommend that divers bring their own gear. Advanced diving conditions that are common in Galapagos truly call for divers to be in their own, known and proper fitting gear. Please know in advance that sizes and selection are extremely limited. Divers should bring their own dive computer(s), 1-2mm gloves and their own hooded vest and layering garments for added thermal protection.

Full Gear Rental Package – \$250 for full set (BCD, Reg-set, & wetsuit, mask, snorkel, and fins). Excludes computer.

BCD – \$80 per charter

Reg & Gauge Set – \$80 per charter

Computer – \$75 per charter

7mm Wet Suit – \$45 per charter

Fins/Booties – \$25 per charter

Mask & Snorkel – \$25 per charter

100 cubic foot/15 Liter tank upgrade - \$60 per charter

Not available for rental or purchase: cameras, underwater lights/torches, dive knives, reef hooks, pony bottles, steel tanks, gloves, or hooded vests/thermal layering garments. All divers should bring 1-2 mm gloves and additional layering thermal protection garments.

Rental wetsuits are all, standard, full-length 7mm. We carry very limited quantities of Men's SCUBAPRO or Aqua Lung Small, Medium, Large, XL and XXL, XXXL Ladies SCUBAPRO Small, Medium, Large, XL and XXL

Fins are SCUBAPRO Seawing Novas - open-heel, adjustable with bungee straps. No full foot fins available in rental.

Rental BCDs are not weight integrated. Weight belts must be used with rental BCDs.

Rental regulator set-ups come with:

First stage (yoke)

Primary second stage regulator

Secondary second stage regulator (octopus or an alternate air source)

Low pressure inflator hose (standard connector)

Submersible pressure gauge (SPG) and depth gauge (analog)

All gear rental payments are paid directly on Galapagos Sky at the end of the cruise. USD Cash and Visa/MasterCard are accepted on board.
